REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The prior art of record do not anticipate nor do they reasonably suggest the rotary knife as claimed in claims 10, 11, 15 and 16. The closest prior art, Decker et al '915 (US 4,894,915), Bettcher '683 (US 4,178,683 A), Whited '184 (US 6,769,184) and Whited et al '332 (US 5,664,332) all teach rotary knives comprising many of the claimed elements. However, with respect to claim 16 Decker et al '915 lacks the engaging surface passing through the axis; with respect to claim 11, Bettcher '683 lacks the narrowness of the inner bearing face; with respect to claim 15, Decker et al '915 in combination with McCullough lacks the movement of the steel actuator and steel; and with respect to claim 10, Whited '184 in combination with Whited et al '332, lacks the resilient clamp action since there is no expanding movement when the fasteners are selectively loosened. Moreover, none of the other prior art of record fairly teach or suggest these lacking features. Thus, it is believed that these lacking features in combination with all the other recited elements in the respective claims are allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

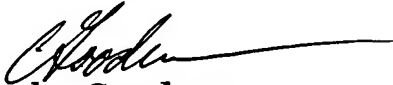

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Charles Goodman whose telephone number is (571) 272-4508. The examiner can normally be reached on Monday-Thursday between 7:30 AM to 6:00 PM EST.
